ACA TALENT PARTNERS WITH HOMES FOR KATRINA TO HELP HURRICANE VICTIMS FIND TEMPORARY HOUSING

FORT LAUDERDALE, FL – Oct. 28, 2005- ACA Talent and HomesforKatrina.org announced the successful placement of hundreds of Hurricane Katrina evacuees in safe temporary housing. The partnership between the two has allowed for a nationwide network of families, housing facilities, and organizations to connect with evacuees in search of safe housing options.

“We saw the problem of housing and thought that the whole country needs to help these people, not just one city, one town or one state,” said Kary Capi-Gunn, CEO of ACA Talent. “Everyone in our office wanted to help, so we decided to use our office and resources to help in the verification and connection process,” added Capi-Gunn.

“Taking on the effort of placement and ensuring the safety and privacy of evacuees and those offering to help is our priority at HomesforKatrina.org,” said Gabe Roffman, founder of Homesforkatrina.org. “ACA Talent has been a tremendous help throughout this process. Their partnership helped make placements possible.”

In order to ensure the safety and privacy of all parties and the involvement of relief organizations all individuals involved were subject to a background check and verification process. HomesforKatrina.org is currently registered with the National Emergency Resource Registry at www.SWERN.gov.

HomesforKatrina.org since its August 30 launch has collected over 2,600 offers of vacant housing. The goal of the website is to help facilitate the connection between those displaced by Hurricane Katrina and in need of safe temporary housing with those offering housing while ensuring the safety and privacy of all parties. To register, or find out about the verification and background check procedures please visit: <http://www.homesforkatrina.org>.
